

# TRAILER SHOPPING CHECKLIST

Here are some questions to ask as you shop for your new trailer.

- What is your budget?
- How many horses do you need to haul?
- What type and size of horses will you typically be hauling?
- What is the towing capacity of your tow vehicle?
- Do you want bumper-pull or gooseneck?
- What type of climate will you be hauling in the majority of the time?
- What is the minimum interior height of the trailer? (don't go less than 7 1/2 ft. for large breeds)
- How wide and long are the stalls?
- What is trailer material, and is it well-constructed?
- What ventilation features does the trailer have?
- What type of floor does the trailer have?
- Can you easily access all the horses without having to unload any?
- Do you prefer ramp or step-up?
- Is the door style compatible with your standard use and climate?
